

Important information for the responsible person completing the UK Bleed Kit Partnership Registration form

Thank you for purchasing and registering a UK Bleed Kit Partnership bleed kit.

Lives have already been saved as a direct result of the UK Bleed Kit Partnership initiative.

Please note, **All** UK Bleed Kit Partnership Bleed Control Kits are NHS-approved BS8599-1, British Standard, MHRA-approved and UK Conformity Assessed medical kits designed for untrained bystanders, and trusted by Emergency Services.

How do I register my bleed kit?

- Taking just a few minutes, complete the form on the website (www.heartsafe.org.uk/register-a-bleed-kit).
- Ensure you include the exact location data from www.what3words.com showing the position of your UK Bleed Kit Partnership dispenser.

Why Register with on the UK Bleed Kit Partnership/HeartSafe mapping systems?

- Registration of a HeartSafe Community Bleed Control Package with either a 'Standalone' 'Limpet' or Standalone Lamp Post /Railings public dispenser will:
- Place your Bleed Kit's location and availability on Police and Ambulance CAD systems.
- Enable Emergency Service operators to direct members of the public to the bleed kit in an emergency.
- Include the Bleed Kit on the UK Bleed Kit Partnership/HeartSafe public-facing Map.
- Allow communities across the UK to become familiar with where their closest NHS-approved bleed kit is located should an accident occur resulting in a catastrophic bleed.

Will the contents of the bleed control kit be monitored?

- Yes - registration includes a managed system of monitoring
- When the kit is reported missing or used, registered Bleed Control Kit owners or Guardians are notified.
- When an item within the bleed control kit is nearing its expiry date, registered Bleed Control Kit owners or Guardians are automatically notified and reminded.
- Alerts for expiry are emailed to the owner/Guardian at 90, 60, 45, 30, 15 and 7 days prior to the expiry of any item.

How are used or expired items be replaced?

- NHS-approved, MHRA-approved replacement items and kits should be purchased by the approved supplier, HeartSafe.
- All items are available in the online HeartSafe shop: <https://www.heartsafe.org.uk/bleed-kit-order>
- Purchase packs include an update and re-registration on the mapping system.

Will my bleed kit show immediately on the mapping systems?

- Please allow five working days for the dispenser and the Bleed Kit to be added to the UK Bleed Kit Partnership/HeartSafe map (www.heartsafe.org.uk/bleed-kit-map) and CAD Emergency Services mapping systems.
